

PP14: The Papers of Sue Lloyd-Roberts

Summary catalogue

Susan [Sue] Lloyd- Roberts was a celebrated and award winning investigative journalist and human rights campaigner. Lloyd-Roberts studied History and Modern Languages at St. Hilda's from 1970-1973 and went on to work with ITN and the BBC producing award winning reports on diverse socio-political issues; from manufacturing conditions in Burma to the use of Prisoner organs in China and the political situation in Northern Iraq.

The collection is particularly strong in respect to her investigative newspaper work. These cuttings also include articles about Lloyd-Roberts herself; her reporting methods, family life and final illness.

The correspondence mainly focuses on the awarding of her M.B.E. There are also letters relating to her support for campaigns, letters responding to her televised reports, invitations to give speeches , responding to awards and early ITN related correspondence. We also hold a number of speeches she gave on human rights issues and her career in journalism, along with annotated prompt cards and scripts for broadcast.

Finally, alongside family photographs and stills from her television reports are papers from her early life; including school reports and assignments. Finally the collection holds memorial booklets, numerous tributes and reflections on her life and work.

Provenance:

The papers were very kindly donated by Sue's husband, Nicholas Guthrie in 2016.

The papers were transferred in bundles, broadly in groups relating to activities. The Archivist has adhered to these groupings but arranged in sequence as far as possible the items by date. Original order has been maintained as far possible, although some duplicated material have been disposed of.

Extent:

The papers consist of one large newspaper cuttings box, one box of photographs and two correspondence boxes.
